OFFICE WATER SOLUTIONS™

The Technology of Pure Refreshment

1. Hygienic Design

Every glass is freshly-filtered and instantly-chilled in ION's proprietary **Sealed Water Pathway™** where air never contacts the water supply.

2. InstaChill™ 10X Capacity

Dispense up to **8 gallons per hour of ice-cold water** -- 10X the capacity of a standard office cooler. No other cooler even comes close.

3. RapidHot™

Tea, cocoa and even instant soups are delicious with piping hot, freshly-filtered water -- convenient and ready whenever you are.

4. SodaPro™ Sparkling Water

Make it Sparkle™ with ION! Indulge your healthy lifestyle with the healthy alternative to soft drinks. Try it with a twist of lemon or lime.

5. Optional ALKALINE Water

Give your hydration a BOOST with our **bestWATER+™ supercharged** alkaline water w/electrolytes!

6. Sani-Touch™ SMART Faucet

ION's unique design places the faucet away from germ hands and cups. And, since hot water is dispensed from the top of the faucet, your faucet is **sanitized** with each hot dispense.

7. SMARTLogic™ Technology

Take control of your hydration -- ION's custom software monitors your system diagnostics 24/7 while ION's **PureAlert Filter Monitor™** ensures that your water is always fresh.

8. Built-In Sparkling System

No more bulky external CO₂ tanks. Each SodaPro™ Kit provides up to 1,000 8-ounce glasses of bubbly refreshment!

Eliminate Sugary Soft Drinks & Single-Use Plastic Bottles While Enjoying A HEALTHIER Office Beverage Solution! ION does it ALL!

With ION's patented sparkling water system, cool, crisp hydration is just moments away. Enjoy an endless selection of ice-cold bubbly refreshment and even **Italian sodas** with ION from Nature's Best!
