Specification: Power 100-115 VAC 50Hz

Max Power Consumption	600 Watts
Refrigerant	R134a
Cold Temperature Range	36.8° – 51.5° F
Cold Capacity	9.2 gallons per hour
Hot Temperature	197° F
Hot Capacity Countertop	1.5 gallons per hour
Dimensions	13" W x 18.5" D x 16.25" H

Overall Dimensions w/Base 13" W x 18.5" D x 52.25" H

Dispense Height 10.75"

Introducing Deep Sparkle®

Intense, long-lasting sparkling
water

The superior Deep Sparkle®, unique to the Supreme™, is achieved through high-pressure saturation. Conveniently maintained with safe, easy-to-fit CO₂ canisters available in two sizes.

Deep Sparkle® is our answer to a massive recent rise in consumer demand. Millennials love this product, and the environmentally-minded and health-conscious of all ages are flocking to bottleless sparkling systems as a greener, cleaner alternative to the products of yesteryear.

Why do people LOVE our sparkling water?

It's healthy

Sparkling water is just as hydrating as still water, retaining all the health benefits of the latter and carrying just as many beneficial minerals. Research shows that regular sparkling water intake can even aid digestion.

It enhances flavor

Water with high-quality carbonation carries stronger flavors for a superior consumer experience, even with no added sugar. This quality makes it a favorite for people trying to cut down on high-sugar sodas or carbonated alcoholic drinks.

It complements coffee

A sip of sparkling water cleanses the palate and prepares the tongue to take in the pleasant taste of coffee by diluting acidity and offsetting possible dehydration.

It's versatile

People all over the world are enjoying their sparkling water in refreshing new ways, especially as a cooking aid. Sparkling water decreases oxidation in vegetables, and makes baking batters rise with a fluffy texture.

It's compatible with POU

The instant carbonation of Deep Sparkle® is the perfect option for a bottleless water cooler. Users can get the best in sparkling water without contributing to plastic waste.
